

## Change NetSet Email Settings on an Android Device using the Gmail App

You were issued a **new random email password** about a week before the migration. If you haven't done so already, you should **change it** first; otherwise proceed to step 6.

1. Log into Webmail at <https://mail.mynetset.ca/> on a computer (not a mobile device) with your full email address and new random password

2. Click on **Settings**

3. Under Settings, click on **Password**

4. Enter your **Current** random **Password**, and then your **New Password** twice

5. Click **Save**

## Changing Your Settings

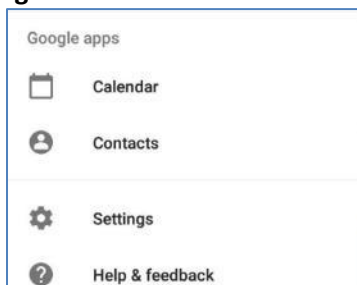

6. Open the **Gmail** app using the icon

7. Tap the **three horizontal bars** to the left of **Inbox**

8. Scroll down to the bottom and select **Settings**

1. Tap your **email address**

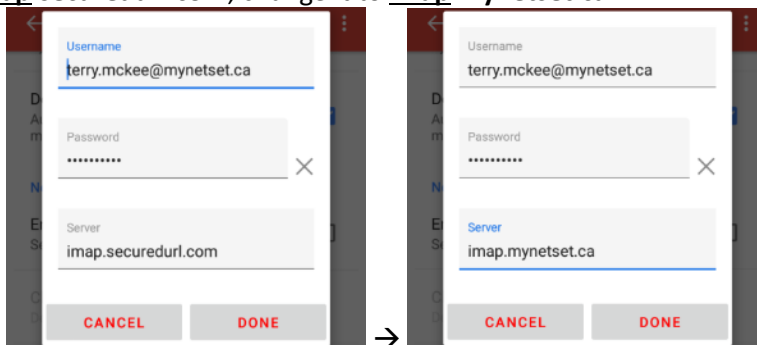

2. Scroll down to **Server settings** at the bottom and tap **Incoming settings**

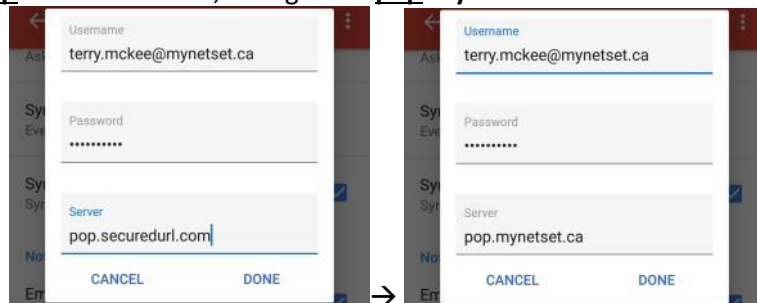

9. Change the following settings:

- a. Enter your new email **Password**
- b. If the **Server** is imap.securedurl.com, change it to imap.mynetset.ca

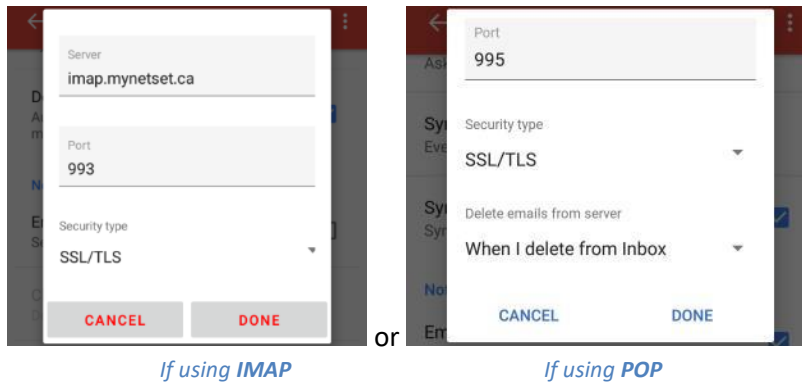

*If using IMAP*

- c. If the **Server** is pop.securedurl.com, change it to pop.mynetset.ca

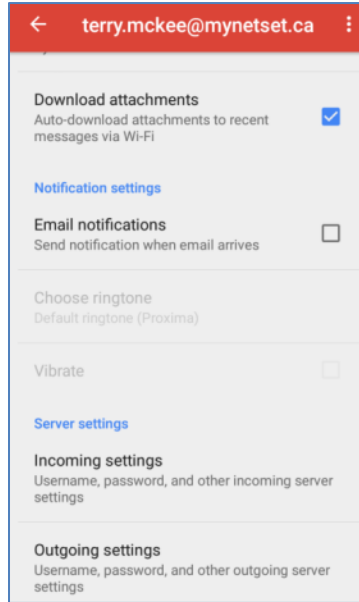

*If using POP*

- d. Scroll down
- e. Verify the **Port** is **993** (for IMAP) or **995** (for POP)
- f. Verify the **Security type** is **SSL/TLS**

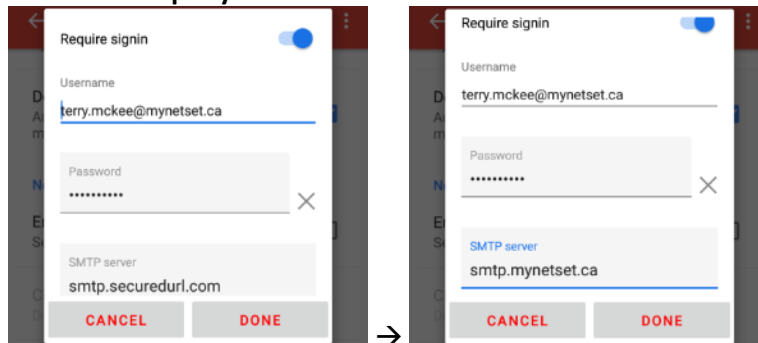

g. Tap **Done**

10. Scroll down to **Server settings** at the bottom and tap **Outgoing settings**

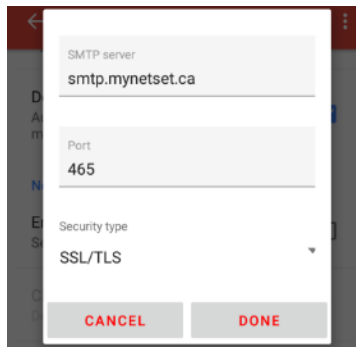

11. Change the following settings:

- a. Enter your new email **Password**
- b. Change the **SMTP server** to **smtp.mynetset.ca**

- c. Scroll down
- d. Verify the **Port** is **465**
- e. Verify the **Security type** is **SSL/TLS**

f. Tap **Done**

12. Tap the **arrow** at the top left next to your email address

13. Tap the **arrow** at the top left next to Settings

Your account is now ready for post-migration use in the Gmail app on an Android mobile device.
